COURSE OVERVIEW

USE OF SAI ASSESSMENT & CLINICAL FORMULATION TOOLS

COURSE AUTHOR: ÉADAÓIN BHREATHNACH

- ◇ The Sensory Arousal Attachment Physiological Profile (SAAP) Questionnaire.
- ◇ Levels of Self-Regulation (LOSR) Chart.
- ◇ SAI Impact Chart & SAI Clinical Intervention (Clinical Formulation) Chart.

This course will train therapists in the use of SAI assessment & clinical formulation tools and provide a structure for writing summary and full-length reports. These can be used as a template for Occupational Therapy or Physiotherapy Reports which provide an evaluation on the developmental impact of trauma on children, young people and their Carers.

Entry Requirements

Completion of Therapist's (old) Level 1 Course & DMM attachment training
or
Completion of SAI Foundation Training (both elements)

PART 1

Duration 2 Hours

SAI Interpretation and Formulation:

- ◇ Implementing the SAAP (Sections 1, 2, 3 & 4).
- ◇ Plotting and formulation using the LOSR chart.

PART 2

Duration 2 Hours

Profiling and Presenting Findings and Recommendations using an SAI Approach

Workshop Content:

- ◇ Transferring information into an Impact Chart.
- ◇ Formulation of recommendations using an Intervention Chart.

REPORT WRITING

COURSE AUTHOR ÉADAÓIN BHREATHNACH

CONTRIBUTING AUTHORS EMMA SMITH & CHRIS WEST

Duration 2 Hours

- ◇ Report Writing for SAI Assessments & Intervention.
- ◇ Writing Templates for Summary and Full Length SAI Reports
- ◇ Adapting SAI Language across stakeholders.
